

Hunt Diary 05 Oct 2006

Autumn Clements

Well I was hunting Prancer in a PKC hunt and drew out with Greg Ryan and his dog PKC CH UKC GRNITECH CH Ryan's Amazing Mazie.

Our first drop Prancer had a 1st and a 1st, he was close to a house so we just looked for a few minutes and circled the points. We re-cut back out in the field and Prancer got 2nd strike and Prancer and Mazie picked and picked on the track Mazie ended up treeing and Prancer backed her on it. Although we knew it was slick we did end up circleing it because it was a pretty bushy tree.

Second drop Prancer had 1st strike and Mazie open shortly after and treed. Prancer treed in deeper so I treed him, we started for Mazie's tree and she left and went to Prancer and before she got there Prancer left also. Although he did come back to the tree awhile later and both dogs treed. We went in and it was a big sun tree.

Third drop Prancer had a 1st and 2nd on a coon, then we re-cut in and Prancer had a 1st and 2nd again.

We were holding a tie at this point.

Last drop we had 16 minutes left. We turned loose and it took them a while but Prancer got in and got 1st strike and run the track a pretty good ways, with one minute left in the hunt Prancer rolled out a two big locates and treed and I treed him, shortly after Mazie treed with him. We went in and he had the coon. Prancer and I won the cast with 400+.
