Autumn Clements

Well we went to a PKC comp hunt. I was hunting Prancer and drew out with my dad, hunting his Posh female and Jason Hoeg hunting his B&T female Hope.

First drop they run a coon from a corn field down into a swampy area. They made a big lose, but Posh picked the track up and treed the coon. Prancer and Hope kept trying to work the track out themselves and ended up slick.

Second drop all 3 dogs struck and took the coon down to a huge bank. Posh ended up stuck down the bank and we called time out and had to climb down to get her (we picked up the B&T in the meantime), when we finally got Posh Prancer was treed on the other side of the marsh. So we drove around and got him, he had the coon.

Posh ended up winning the cast!!
